Hi Kelly,

I am attaching the EtO assessment. Deirdre should have just gotten it but thought I'd follow up with this email so you both have it.

Both EtO and BaP are tracking with each other, with EtO a little ahead. EtO has just now entered into Step 6 of the IRIS process (final agency/interagency review). We don't expect major changes in the numbers unless we get significant comments during this review step. As we move closer to final posting (anticipated in late December), let's touch base so you guys have the most accurate values. Similarly, BaP will be heading to Step 6 soon. It is still being revised in response to SAB peer review comments, I will talk to the team to ensure that the values are stable and will share those with you as soon as we can. We anticipate posting the final assessment in early January.

Glad we can help. I'll reach out to you early next week!

Thanks,
Samantha

Thanks very much John. We are very happy to hear that about EtO.

We would need to have BaP by next week to include it in the run. I'd be happy to chat with you or anyone about the importance of including BaP, if that would help.

Kelly

Hi Kelly,

The EtO package is being sent to Deirdre today, so that includes the small revisions to the IUR made since peer review. Bap will follow by a couple weeks.
I'm copying Samantha Jones who can provide more information if you can't wait the few weeks for BaP.
Hope that helps.
John

Hi John,

Just checking in to see if we can get those values. We are planning on running the model at the end of next week and will need to put the values in the DR database if we are going to include them in this run.

Thanks,
Kelly
